### 05/20/2024 - Walk-In in Sharp Laboratory Services on Medical Center Court

#### Labs

#### MICROALBUMIN RANDOM URINE (Final result)

Electronically signed by: **Kimberly Garcia, MA on 04/16/24 1138**

Status: **Completed**

Ordering user: Kimberly Garcia, MA 04/16/24 1138

Ordering provider: Kevin Malone, MD

Authorized by: Kevin Malone, MD

Ordering mode: Per protocol: no cosign required

Frequency: Routine 04/16/24 -

Class: Lab Collect

Quantity: 1

Lab status: Final result

Instance released by: Alondra Downey 5/20/2024 7:30 AM

Diagnoses

Other long term (current) drug therapy [Z79.899]

Hyperlipidemia associated with type 2 diabetes mellitus (HCC) [E11.69, E78.5]

#### Questionnaire

| Question           | Answer    |
|--------------------|-----------|
| Release to patient | Immediate |
| Client Bill?       | No        |

#### Specimen Information

| ID            | Type  | Source             | Collected By               |
|---------------|-------|--------------------|----------------------------|
| 24V-141C00337 | Urine | Urine, Clean Catch | Susan Banzon 05/20/24 0732 |

#### MICROALBUMIN RANDOM URINE

Resulted: 05/20/24 1103, Result status: Final result

Ordering provider: Kevin Malone, MD 05/20/24 0730

Order status: Completed

Filed by: Lab, Background User 05/20/24 1103

Collected by: Susan Banzon 05/20/24 0732

Resulting lab: SCV HOSPITAL LAB

CLIA number: 05D0060541

Acknowledged by: Kevin Malone, MD on 05/20/24 1123

#### Components

| Component            | Value | Reference Range | Flag | Lab |
|----------------------|-------|-----------------|------|-----|
| U Microalbumin       | <7    | mg/L            | —    | SCV |
| Creatinine, Ur       | 78.0  | mg/dL           | —    | SCV |
| Microalb/Creat Ratio | —     | —               | —    | SCV |

Comment:

Unable to calculate Microalb/Creat ratio due to one or more analytes out of analytical range

Narrative:

e GFR Reference Ranges

GFR Categories in Chronic Kidney Disease (CKD)

GFR Category GFR (mL/min/1.73 square meter) Interpretation

|     |               |                             |
|-----|---------------|-----------------------------|
| G1  | 90 or greater | Normal or high*             |
| G2  | 60-89         | Mild decrease*              |
| G3a | 45-59         | Mild to moderate decrease   |
| G3b | 30-44         | Moderate to severe decrease |
| G4  | 15-29         | Severe decrease             |
| G5  | 14 or less    | Kidney failure              |

\*In the absence of evidence of kidney damage, neither GFR category G1 nor G2 fulfill the criteria for CKD (Kidney Int Suppl 2013;3:1-150)

Acknowledged by: Kevin Malone, MD on 05/20/24 1123

Body Part(s) Assessed: Cervical/Thoracic Spine, Lumbar/Sacral Spine  
PT Visit Info  
Treatment Day: 15  
Type of Visit: Discharge/treatment  
Progress Report Period Start - PT: 12/13/23  
Progress Report Period End - PT: 04/25/24

**Subjective**

Subjective Report

Patient Subjective: Patient reports 90% improvement in his symptoms since the beginning of therapy. Overall, he can perform most daily tasks without minimal symptoms in the lumbar or cervical spine. No radicular pain, numbness, or tingling reported. He does have occasional headaches. Yesterday, the cervical spine had a flare up while driving and he did not have any medication to treat it. The pain was still minimal, but constant. Patient is comfortable with discharge at this time and will focus on his HEP independently.

Medication Change: none

Fall since last update: 0

**Objective**

Pain Assessment - General

Pain: 0.5-3/10

Joint Mobilization Area(s): c/s and l/s

Joint Mobilization Details: P-A's, lat glides, downglides

Soft Tissue Mobilization Area(s): c/s, upper traps, t/s, l/s, thoracolumbar fascia

Soft Tissue Mobilization Details: c/s upper traps, mid traps/rhomobids, l/s, QL

Manual Stretching Area(s): upper traps, hip flexors, hamstrings, IT band, glutes

1. NMR Activity Description: Contract-relax R c-spine and l-spine

1. NMR Activity Details: deep breathing and pelvic tilt with PROM

Cervical Spine Active Range of Motion

Cervical Spine AROM Flexion: 32

Cervical Spine AROM Extension: 38

**Clinical Notes (continued)**

Cervical Spine AROM Rotation - Left: 55

LS/SI Active Range of Motion

LS Flexion: 31 cm above floor

LS Extension: 15 cm below gluteal

LS Sidebend - Right: 3 cm above fibular head

LS Sidebend - Left: 10 cm above fibular head

LS Rotation - Right: WFL

LS Rotation - Left: WFL

Patient Education - Ortho

HEP Details: Continue HEP

HEP Response: Verbal understanding

**Assessment**

PT Ortho Assessment

Assessment - PT Ortho: Patient still has lingering restriction going into L cervical rotation and L lumbar sidebend. This improves after manual stretching and soft tissue mobilizations. Patient to be discharged to the HEP as he is very close to his prior level of function. Thank you for this referral.

**Plan**

PT Ortho Plan

Plan - PT Ortho: No skilled PT/No further PT recommended

Reason for PT Ortho Discharge: Patient no longer meets criteria for "Skilled Therapy"

**GOALS**

Problem: PT General LTG

Goal: LTG - Decrease the cervical and lumbar spine pain to 0-1/10 to tolerate sleeping in all positions as well tolerate prolonged sitting by 10 visits.

Outcome: Adequate for Discharge

Problem: PT General LTG

Goal: LTG - Increase AROM of the cervical spine to WFL to tolerate scanning his environment and driving by 10 visits

Outcome: Adequate for Discharge

Problem: PT General LTG

Goal: LTG - Increase AROM of the lumbar spine to WFL to tolerate all bending and reaching for ADLs by 10 visits.

Outcome: Adequate for Discharge

Problem: PT General LTG

Goal: LTG - Increase soft tissue and joint mobility in the c-spine and l-spine to WFL to tolerate all domestic duties without difficulty by 10 visits.

Outcome: Adequate for Discharge

Problem: PT General LTG

Goal: LTG - Increase core and scapular stability/endurance to tolerate all exercise, walking, and return to his prior of

### Clinical Notes (continued)

**Name:** Ronald S Handrop  
**DOB / AGE:** 12/7/1954 / 69 y.o.  
**MRN:** 100962224  
**CSN:** 2002904940

PT Visit Info  
Treatment Day: 14  
Type of Visit: Treatment

### Subjective

#### Subjective Report

Patient Subjective: Patient woke up today without any pain in the lumbar or cervical spines. This slowly turned into a very low grade uncomfortable sensation in the R>L hemisphere. He feels the most pain with washing dishes. B sidebend of the c-spine feels restricted.

### Objective

#### Pain Assessment - General

Pain: 0.5 cervical and lumbar spines

Joint Mobilization Area(s): c/s and l/s

Joint Mobilization Details: P-A's, lat glides, downglides

Soft Tissue Mobilization Area(s): c/s, upper traps, t/s, l/s, thoracolumbar fascia

Soft Tissue Mobilization Details: c/s upper traps, mid traps/rhomobids, l/s, QL

Manual Stretching Area(s): upper traps, hip flexors, hamstrings, IT band, glutes

1. NMR Activity Description: Contract-relax R c-spine and l-spine

1. NMR Activity Details: deep breathing and pelvic tilt with PROM

### Assessment

#### PT Ortho Assessment

Assessment - PT Ortho: Patient is doing very well. He is more restricted into L rotation and sidebend passively with the restriction reportedly in the muscles. Excellent tolerance to manual techniques and contract relax. Patient given strategies to cope with washing dishes. He will be discharged most likely at the next visit.

### Plan

#### PT Ortho Plan

Plan - PT Ortho: Skilled PT, continue plan of care

Considerations for Next TX Session: 1 more visit

Visit date: 4/11/2024

# 04/11/2024 - Treatment in Sharp Chula Vista Medical Center Outpatient Physical Therapy (continued)

## Clinical Notes (continued)

Treatment Day: 13

Type of Visit: Treatment

## Subjective

### Subjective Report

Patient Subjective: Patient has been feeling better since the last visit. He will not feel the lumbar spine unless he thinks about it. Walking outside has been limited secondary to the pollen and allergies. No headaches reported. Bed mobility and transfers are not a problem. He has been doing well with the ADLs.

## Objective

### Pain Assessment - General

Pain: 0.5/10 c/s 0.5/10 lumbar spine when he thinks about it.

1. Ex Description: cat camel

1. Ex Reps/Sets/Details: x20

2. Ex Description: Quadraped thread the needle

2. Ex Reps/Sets/Details: 1x15 bilaterally

Joint Mobilization Area(s): c/s and l/s

Joint Mobilization Details: P-A's, lat glides, downglides

Soft Tissue Mobilization Area(s): c/s, upper traps, t/s, l/s, thoracolumbar fascia

Soft Tissue Mobilization Details: c/s upper traps, mid traps/rhomobids, l/s, QL

Manual Stretching Area(s): upper traps, hip flexors, hamstrings, IT band, glutes

## Assessment

### PT Ortho Assessment

Assessment - PT Ortho: Increased soft tissue mobility observed in the t/s and l/s. Good joint mobility throughout the c/s, t/s, and l/s. The scalenes and and B SCMs remain tense and tender. He has good tolerance to ther ex, but required cues to increase lumbar extension during the cat-camel. Patient is doing well.

## Plan

### PT Ortho Plan

Plan - PT Ortho: Skilled PT, continue plan of care

Considerations for Next TX Session: 1-2 more visits

**Subjective**

**Objective**

Cervical Spine Active Range of Motion  
Cervical Spine AROM Rotation - Right: 60  
Cervical Spine AROM Rotation - Left: 50

Lower Quadrant  
Lower Quadrant Areas Assessed: Lumbar/Sacroiliac  
LS/SI Active Range of Motion  
LS Sidebend - Right: 2 finger breadths below fib head  
LS Sidebend - Left: 2 finger breadths above fib head

Patient Education - Ortho  
HEP Details: Continue HEP

**Assessment**

PT Ortho Assessment  
Assessment - PT Ortho: Patient presents with STRs R>L cervical quadrant. Gross c/s mobility is fair, tolerated distraction techniques and mobs well. T/S is stiff, did fair with sidelying open book. Min pain reported with central P-A's to L4-5. R>L l/s paraspinals and QL muscles are tight. R>L hamstring and glut tightness. Patient tends to over compensate at the LB while performing prone donkey kicks, tactile cues given to stop at glut contraction. He demonstrates weakness R>L with prone l and T exercises for the UQ. Educated patient to focus on strengthening deficits and stay in pain free range with stretches. Patient is scheduled to have an NMRI in April. Thank you for this referral.

**Plan**

PT Ortho Plan

Plan - PT Ortho: Skilled PT, continue plan of care

Frequency and Duration - PT Ortho: 2 x/week decreasing to 1 x/week for 10 visits

**GOALS**

LTG - Decrease the cervical and lumbar spine pain to 0-1/10 to tolerate sleeping in all positions as well tolerate prolonged sitting.

PT General LTG Disciplines: Interdisciplinary, PT, OT

LTG - Increase AROM of the cervical spine to WFL to tolerate scanning his environment and driving.

PT General LTG Disciplines: Interdisciplinary, PT, OT

LTG - Increase AROM of the lumbar spine to WFL to tolerate all bending and reaching for ADLs.

PT General LTG Disciplines: Interdisciplinary, PT, OT

LTG - Increase soft tissue and joint mobility in the c-spine and l-spine to WFL to tolerate all domestic duties without difficulty.

PT General LTG Disciplines: Interdisciplinary, PT, OT

LTG - Increase core and scapular stability/endurance to tolerate all exercise, walking, and return to his prior of function.

**Subjective**

Subjective Report

Patient Subjective: Pt reports 3 x/week ago, he may have overdone it with the neck stretches and began having a sharp pain just at the base of neck when looking up. Pt used a soft collar for support which has helped. Pain today isn't too bad today, states he's not been doing too much. LBP is still localized. He verbalizes doing his HEP daily but has not walked daily due to the weather. He states that he has an NMRI scheduled in April.
